Topic: Reference letter

Representing TAURON Dystrybucja S.A. with its registered office in Tarnów I am pleased to inform you that TAURON Tarnów has been cooperating with BITSTREAM for many years in the field of delivery of data transmission equipment.

We use this company's solutions, which include HYPERION switches. The switches form the application part responsible for, among other things, communication of substation automation systems based on devices of such suppliers as ABB, Schneider Electric, Computers & Control, Apator Elkomtech in networks built according to IEC 61850 standard.

BITSTREAM as a manufacturer of data transmission devices has been providing us with professional technical support and delivery of solutions that are characterized by high quality of workmanship for many years.

Considering the fruitful cooperation so far, I recommend BITSTREAM as a solid and reliable technological partner.

Sincerely
Jarosław Kubala
Telecom Department Manager

A handwritten signature in blue ink, reading "Jarosław Kubala". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
